

Professional Accounting Technician

LEVEL 4 (AAT)

15 Month Programme + EPA

Mastering the skills to process and interpret financial data to influence business decisions.

Introduction to the course

Our Level 4 accounting programme combines dedicated workplace mentoring, on-the-job experience, access to high quality online resources alongside our outstanding blended delivery model. This route builds the necessary skills, knowledge and behaviours required to become a highly skilled Professional Accounting Technician.

Learner outcomes

During the programme, apprentices will cover topics developing their ability to create, verify and review accurate and timely financial information. A Professional Accounting Technician will apply the relevant ethical, professional and accounting standards in the preparation and drafting of financial statements. Depending on their role your employee will also learn specialist knowledge in other aspects of accounting, for example management or tax accounting.

Assessment

Following completion of the 3 required units, learners will progress to the End-Point Assessment in which the knowledge and evidence learners have gathered will be assessed against the programme criteria.

The End-Point Assessment will involve a range of assessment tools including:

- A 3 hour synoptic assessment
- A reflective discussion or written statement supported by a portfolio of evidence

Apprentices must achieve Level 2 English and Mathematics before completing the programme.

A good fit for

Senior Bookkeeper, Finance Administrator or Accounts Payable Supervisor and Employees in accounting roles wishing to further develop their career.

Future Jobs

- Management Accountant
- Senior Finance Officer
- Commercial Analyst

What's next?

After achieving the apprenticeship and qualification learners may receive credits towards the Level 7 Accountancy Professional Apprenticeship.
